

# MOUNTAIN RAILWAYS AUSTRIA

## Municipal sector

---

SYSTEM H-FR

SYSTEM H-SUPRA

### REQUIREMENTS:

- Exposed locations in the mountains
- Garages and workshops directly on the mountain, limited space available
- Frost resistance
- Filterless separation systems, as maintenance and cleaning are difficult or only possible at great expense due to remote mountain locations
- Environment and nature conservation issues of particular importance

### SOLUTION:

INOWA IS A SPECIALIST IN MOUNTAIN RAILWAYS:

- Separator systems of the types SYSTEM H-FR NS 02, NS 10, NS 20 and SYSTEM H-SUPRA NS 04 are used for a wide range of projects

THE FOLLOWING MOUNTAIN RAILWAYS AND SKI RESORTS HAVE BEEN CONTINUOUSLY EQUIPPED WITH INOWA TECHNOLOGY:

- Bergbahnen Kitzbühel AG
- Gletscherbahnen Ramsau
- Bergbahnen Montafon
- Skiwelt Wilder Kaiser
- Skigebiete Flauchau, Großarl, Maria Alm, Saalbach, Werfenweng und Kühtai
